-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

### ***RESTRICTION REQUIREMENT***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

**Group I. Claims 1-37,110-135 and 156**, drawn to method and apparatus for applying cornerboards and wrapping a load by moving the cornerboards relative the load support, classified in Class 53, subclass 410.

**Group II. Claims 38-54 and 136-153**, drawn to method and apparatus for applying cornerboards and wrapping a load by moving the cornerboards relative the cornerboard magazine, classified in Class 53, subclass 411.

**Group III. Claims 82-89**, drawn to method for applying different size cornerboards and wrapping a load, classified in Class 53, subclass 396.

**Group IV. Claims 90-109,158 and 195-205**, drawn to method and apparatus for applying cornerboards and wrapping a load by using unformed boards that are folded prior to application, classified in Class 53, subclass 449.

**Group V. Claims 55-81,154,157,158 and 161-172** drawn to method and apparatus for applying cornerboards and wrapping a load by rotating the cornerboard, classified in Class 53, subclass 139.7.

**Group VI. Claims 110-153,155,159,160 and 173-194** drawn to method and apparatus for applying cornerboards with grippers and wrapping a load, classified in Class 53, subclass 176.

The inventions are distinct, each from the other, because of the following reasons:

The inventions of Groups I through VI are related as **subcombinations disclosed as useable together in a single combination**. The subcombinations are distinct from each other if

Art Unit: 3721

they are shown to be separately useable. In the instant case, each of the inventions has separate utility because it can be used in a packaging machine without the specific structure recited in the Groups of the other claims. (See MPEP 806.05(d)). It should be noted that in a comparison of the independent claims of the subcombinations claims, each of the claims provides evidence that the it does not require the particulars of the other subcombination for its presumed patentability. Even if other claims *do* set forth these particulars, distinction between the *inventions* is shown if one subcombination claim does not include the particulars of the other subcombination claim. The presence of the particulars in the dependent claims indicates that they *may be* included as part of the combination, but the independent claims provide evidence that the particulars are not *required*. (See MPEP 806.05(c), Example 3).

Because these inventions are distinct for the reasons given above, and because they have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes, as indicated, is proper.

Applicant is advised that the response to this requirement, to be complete, must include an election of the invention to be examined even if the restriction requirement is traversed.

Applicant is reminded that, upon cancellation of claims to a non-elected invention, the **inventorship must be amended** in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h). Applicant should further **amend the title**, in necessary, to reflect the elected invention.
